

# River of Healing - Ukulele

(C) Kellie Haddock 2021 / ASCAP 886039719

Em                    G7  
When your words are gone  
      Em                    G7  
There's nothing left to be said  
      Em        Asus                    D7        G7  
The cadence of waves wash, wash over, over you  
      Em    G7                    Em    G7  
The surging tide sweeps the night away  
      Em        Asus                    D7        B7  
As goodness and mercy wash over, over you  
      C        D        C        G  
Surprised by peace, surprised by peace

      Em        G7                    Em        G7  
This river's unknown, it's power untamed  
      Em        Asus                    D7        G7  
Calling, calling you deeper deeper still  
      C        D        C        G  
Surprised by peace, surprised by peace

Em                    C        D        G  
Clouds begin to fade that shroud this place  
Em                    C        D        G  
Clouds fade away reveal new grace  
      C        D        C        G  
Surprised by peace, surprised by peace  
      C        D        C        G        G  
Ooooooh.....

      Em                    G7                    Em        G7  
You're standing at the edge, your toes in the stream  
      Em        Asus                    D7        G7  
Slowly, slowly you walk deeper, deeper still  
      Em                    G7  
The water moves through your hair,  
      Em        G7  
Refreshes you through  
      Em        D                    Em        G  
As goodness and mercy wash over, over you  
      Em        D                    Em        G  
It washes the layers of mire away  
      Em    G7        Em        G7  
Away.... away.... away.... away

      G7                    C  
Surprised by peace.... 3x.

End G
